

InTent Emergency Internship Programme

Supporting Students from Ukraine

What do we aim to achieve for students from Ukraine?

Every crisis needs our attention! Given the dreadful situation unfolding today in Ukraine, we want to use our expertise to provide a safe and inspirational space for students from Ukraine and allow them to follow up on their plans to build their professional future – with your help and support.

What can we do now for this young generation?

Let us unite and together offer an internship programme for students from Ukraine to enable them to pursue their career ambitions. No matter your company size! No matter your industry! Join our initiative by offering 1 or 2 internship positions for at least 3 months to refugee students from Ukraine.

Why should you take part in this?

- **Take Action:** Use this internship programme to play your part in helping refugee students from Ukraine to continue their education journey.
- **Community:** Even one position makes a difference. Even one activity makes a difference. As a community we can combine our forces and build something meaningful for refugee students from Ukraine.
- **Opportunity:** Get inspired with new ideas and insights while providing the opportunity to refugee students from Ukraine to follow-up on their career path.

How can InTent support you?

- For companies with limited financial resources we can assist on a case-by-case basis to cover the internship costs (salary, housing).
- We use our expertise to coordinate the programme for you.
- We use our network to create awareness for the positions and help with the onboarding process.
- We provide a platform to create a community among all the students taking part in this programme.

About InTent

InTent is a platform created by André and Rosalie Hoffmann in 2019 that seeks to drive sustainable change through partnerships for action. Our mission is to accelerate sustainable solutions for businesses, people, and planet by building bridges and connecting people.
