Seed Impact Summit, 24th and 25th of September 2025

About the event

This event brings together two global, impact-driven internship programmes: the **Roche Global Internship Programme in Innovation & Sustainability (#IP2TIS)** and the **InTent Internship Programme (#IIP)**.

Over two days, **70+ interns** from more than **24 countries** share the results of their work – tackling real-world challenges in science, technology, society, sustainability, and more.

This event marks the **culmination of the 2025 edition/the 5th edition** and offers a powerful platform for the next generation of innovators to showcase bold ideas, transformative insights, and action-oriented solutions to change the world from within the industry.

Why attend?

Because you'll experience how **sustainability can spark innovation** – and how early in career changemakers are already taking action to **shape the future of our society and our planet**.
